Pre-Workshop Test

Date: __________
Profession: Doctor / Nurse / Medical Technologist / Other  Gender: Male / Female  Age: ____

1. True or False: The maximum incubation period of Ebola Virus Disease (EVD) is 42 days.
   a. True; b. False

2. True or False: A person infected with Ebola virus can pass on the virus before symptoms begin.
   a. True; b. False

3. Transmission of Ebola virus occurs through:
   a. Direct/indirect contact with blood and body fluids of an infected symptomatic person.
   b. Casual contact such as being on the same bus as an infected symptomatic person.
   c. Airborne particles expelled by an infected symptomatic person during speaking.
   d. Airborne particles created during intubation of an infected symptomatic person.
   e. A and D
   f. All of the above

4. True or False: Soap and water is an effective method of hand hygiene when caring for patients with EVD.
   a. True; b. False

5. True or False: While working in personal protective equipment (PPE), healthcare workers caring for patients with EVD should have no skin exposed.
   a. True; b. False

6. True or false: The World Health Organization recommends double gloves when caring for a suspect or confirmed Ebola patient.
   a. True; b. False

7. Which is the correct way to make a 0.5% chlorine solution from 5% concentrated sodium hypochlorite (same as 5000ppm active chlorine or 1:10 solution)?
   a. 1 cup 5% bleach with 10 cups clean water
   b. 1 cup 5% bleach with 20 cups clean water
   c. 1 cup 5% bleach with 9 cups clean water
   d. 1 cup 5% bleach with 5 cups clean water

8. True or False: Waste from an Ebola patient in a typical Philippine hospital can be discarded as is usual.
   a. True; b. False

9. True or False: When caring for a suspected or confirmed Ebola patient, do not perform any blood tests except an Ebola test.
   a. True; b. False

10. True or false: A person dead from EBV can be embalmed.
    a. True; b. False
11. Do you agree with this statement?
I am confident that I can be safe when caring for a patient with Ebola virus disease.
(Rate your response on a scale of 1 to 5, where 1 = strongly disagree; 2 = disagree; 3 = neither agree nor disagree; 4 = agree; 5 = strongly agree.)
Please circle your number.
