Plenary two:
Past, present and future (2)
13th General Programme of Work 2019-2023

Dr Graham Harrison

Country Support Unit, WPRO
Vision

• Vision (WHO Constitution):
  A world in which all people attain the highest possible level of health and well-being

• Constitutional requirement:
  General Programme of Work
Mission
Promote health – Keep the world safe – Serve the vulnerable

Strategic Priorities

• **Health coverage** – 1 billion more people benefiting from UHC

• **Health emergencies** – 1 billion more people better protected from health emergencies

• **Healthier populations** – 1 billion more people enjoying better health and well-being
1 billion more people enjoying better health and well-being

1 billion more people better protected from health emergencies

1 billion more people benefitting from universal health coverage
Strategic shifts
How WHO plans to contribute to achieving the triple billion targets

1. Step up leadership

2. Drive impact in every country

3. Focus global public goods on impact
Organizational shifts needed to deliver the strategic shifts

- Measure impact to be accountable and manage for results
- Reshape the operating model to drive country, regional and global impact
- Transform partnerships, communications and financing to resource the strategic priorities
- Strengthen critical processes and tools to optimize organizational performance
- Foster culture change to ensure a seamless, high-performing WHO
Key points for CCs

• GPW13 is WHO’s framework for achieving SDGs, and for our planning
• Stronger, central focus on country level
• Normative work will be driven more by needs
• Clearer demonstration and articulation of outcomes and impacts
• Accountability for these results
• Strengthening partnerships and multisectoral collaboration
